-

Working in an aged care facility, it is very likely that someone you care for will have low vision. During this workshop you will experience the impact of vision loss in hands-on activities and learn how other issues associated with ageing can interrelate with low sight levels. You will be provided with strategies to improve the quality of life and personal independence of clients in a senior or aged care facility.

This workshop provides participants with:

- Techniques used to help a person with vision impairment to cope with daily tasks
- A demonstration of telephone techniques and ways to tell the time and date
- Strategies for reading and writing
- Tips for showering and grooming
- Techniques for dressing and organising clothing
- Techniques for making hot drinks
- Money management tips
- Ways to use tactile markers to assist in using a variety of equipment
- Techniques for managing medication

Content:

- Presentation
- Demonstration
- Role Play
- Equipment Overview
- Case Studies

To secure your place on this course please print and complete the booking and payment form.
