-

This computer based module is provided for people who work with or have clients who are vision impaired and who require ZoomText software to operate a computer at work or in an education setting. Over two hours you will be provided with an introduction to the commonly used functions and setup features of the screen magnification and speech output program.

The aim of this workshop is to provide participants with:

- An overview of the features of the ZoomText screen magnification program

Topics

Magnifier features

- Installing and starting ZoomText
- Enabling and disabling ZoomText
- Setting magnification levels and Zoom windows
- Using color, pointer and cursor enhancements
- Using the DocReader
- All about Hotkeys
- Saving and using configuration files

Speech features

- Working with speech
- Setting typing and mouse echos
- Adjusting speech verbosity
- Using the AppReader
- Using the DocReader

To secure your place on this course please print and complete the booking and payment form. For further information, phone our Customer Services Officer on (08) 6222 4904.
